Jaded

<u>Verse 1:</u>
2x **A   G   D**

A   G   D
Somebody keep my balance,
A   G   D
I think I'm falling off.
A   G   D
Into a state of regression,
A   G   D
The expiration date.
A   G   D
Rapidly coming up,
A   G   D
I'ts leaving me behind to rank.

<u>Chorus:</u>
D
Always move forward,
                              A G D   A G D
Going straight will get you nowhere.
D
There is no progress,
                 slide E
Evolution killed it all.
                            A G D   A G D
I found my place in nowhere,

<u>Verse 2:</u>

A   G   D
I'm taking one step sideways.
A   G   D
Leading with my crutch,
A   G   D
Got a fucked up equilibrium.
A   G   D
Count down from 9 to 5.
A   G   D
Hooray! We're gonna die!
A   G   D
Blessed into our extinction.
